Fund Objective and Strategy

The investment objective of the Fund is to seek to achieve an annual compounding rate of return over the long term, defined as 5-10 years, which is superior to the median performance of all of the funds forming the official peer group of which the Fund is part. 'Peer group' is defined as being the Investment Association sector to which the Fund has been allocated (currently being the UK All Companies Sector) or to which it may be allocated in future, as determined by that body. Investments will be made principally in UK equities with strong operating franchises and experienced management teams, applying the methodology of Business Perspective Investing.

Fund Commentary

For the second month in a row, the Fund ended the month at an all-time high. The Income (I) Class share price rose by 3.70% from 403.07p to 418.00p compared with a gain of 1.98% for the UK stock market. The Accumulation (J) Class share price rose from 161.94p to 167.93p. The monthly total return for the IA UK All Companies sector was 3.23%. There were subscription inflows of £42.4m and redemption outflows of £45.7m.

This performance was driven by 20 risers, five of which were double-digit. The top performer was Focusrite, up by 21.1%, continuing to respond favourably to July's strong trading update. Second in line was PayPoint +18.8% following news that the little spat with OFGEM over exclusivity clauses in bill payments contracts had been settled to both sides' satisfaction. RWS gained 14.0% and Softcat 10.8%, both with no particular newsflow, whilst Liontrust was 13.7% ahead as it continued to report strong fund inflows. Among the 11 fallers, only Darktrace, down 15.6%, was in the double-digit realm. The shares have had a phenomenal run since the IPO at the end of April and were probably due some profit taking. Also supply and demand was less stretched with the secondary placing of an additional 23.15m shares at 620p. Portfolio activity was limited to topping up positions in a handful of our existing holdings, which absorbed £18.8m of cash.

I am going to finish this month by sharing an observation made by a retired US marine, G. Michael Hopf, in his book 'Those Who Remain'. It is on the subject of historical cycles and given what is going on at the moment, I think it is particularly insightful. He said the following (I've used the term leaders, he used men). "Hard times create strong leaders. Strong leaders create good times. Good times create weak leaders. Weak leaders create hard times." I fear I know where Reagan & Thatcher and Biden & Johnson fit into this particular equation. Brace position, please.
